

Gimnazija Murska Sobota  
Šolsko naselje 12  
9000 Murska Sobota

Murska Sobota, 10.10.2016

#### THE INVITATION

It has been a year since we last met at Bukovnica. Therefore Gimnazija Murska Sobota is preparing a project day – BUKEMON on Saturday, 22 October 2016. We will gather at lake Bukovnica at 9.00 in the morning and we will begin with a short cultural programme. We will also introduce schools taking part and get to know each other better. All the participants will be divided into smaller groups (3-5 people) that will include people from different schools. These groups will look for hidden objects in the nearby area. There will be a short quiz which will then be followed by socialising and a snack. Last but not least there will be the official announcement of the winners.

Since we are hosting people from abroad all communication will be carried out in English.

We would like to invite all employees, students, their parents, teachers and primary school pupils to join us at lake Bukovnica and get to know us from a different perspective. We hope to spend a pleasant and an interesting Saturday in your company.

We would like you to tell us about your decision regarding participation by 19 October 2016 due to easier organisation.

Follow our website and get all the information you are interested in.

Thank you
